

Our staff members are trained to help you to choose the size of storage unit that best suits your needs.

You can usually get more into a unit than you would expect, particularly if you are able to stack your belongings or use shelving. Many of our units are 2.7 metres high, which is higher than the ceiling in most houses.

We have a number of other unit sizes available at our facilities so we suggest calling your nearest facility and speaking to the managers about your storage requirements.

Call today on 0800 58 57 56 to reserve a unit.
